Privacy Notices

The App automatically communicates with its server for three purposes: (1) updating the app; (2) sending error reports; and (3) sending anonymized usage data so we may improve the App. If you would like to learn more about the specific information we send, please visit [\[\[PRIVACY_POLICY_URL\]\]]([[PRIVACY_POLICY_URL]]). You may opt out of sending the anonymized usage data, but if you do not want the App to update automatically or send error reports, you must uninstall the App.

1. **Automatic App Updates.** The App communicates with its server to determine whether there are any patches, bug fixes, updates, upgrades or other modifications to improve it. You agree that the App may automatically install any such improvements to it without providing any further notice or receiving any additional consent. This feature may not be disabled. If you do not want to receive automatic updates, you must uninstall the App.
2. **Error Reports.** In order to help us improve the App, when it encounters certain errors, it will automatically send some information to its server about the error (as described at the URL above). This feature may not be disabled. If you do not want to send error reports to its server, you must uninstall the App.
3. **Anonymized Usage Data.** Dr Trust collects anonymized data about your usage of the App to help us make it more awesome. Approximately once a day the App sends such data to its server. If you do not want to send anonymized usage data to the server, you may opt out by changing your settings in the Preferences view.
